

♫ La Dee Dum ♫  
Here I am working  
on my PhD thesis  
for Commander  
HJ! ♫

AAAHHH!!

That's Commander  
HJ!

Commander!  
What's wrong?

Lovable  
Indestructible  
Grad Student  
of Chaos, someone  
has stolen my  
Ruby

There's mischief  
afoot! and  
I'm not causing  
it!?!?! This is  
an outrage! I  
will find your  
Ruby, Commander!

I'll just  
follow  
these  
suspicious  
footprints

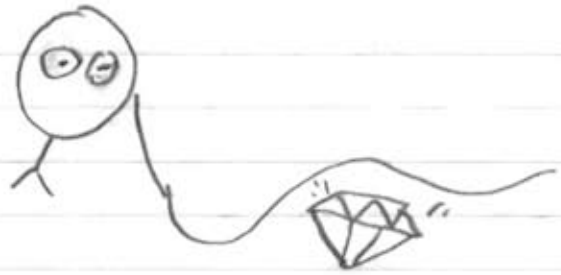

Much later...

Ah, ha! I have located the Commander's Ruby... and the thief who stole it. It's none other than

The Python!

You will never defeat me, Lovable indestructible Great student of Chaos!

Oh, yes, I will! For, you see, I have the magic Perl

That's not the magic Perl

Yeah, it is.

Is!

Is!

Is not!

Is not!

Is not!

It is! Look, it even has the sacred writing on it.

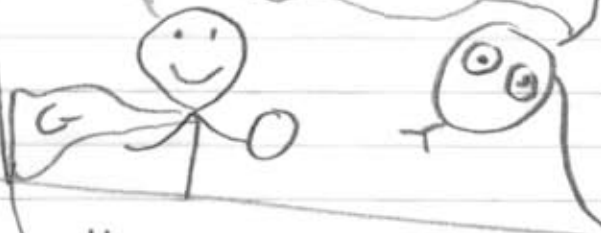

!@%\$#&\*/

Oh, no! It is  
the magic  
Perl! Python  
is no match for  
Perl!

Don't you mean,  
"Python's are no  
match for Perl's?"

No, I had it  
right the  
first time.

Take Commander HJ's  
precious Ruby! But,  
be forewarned, you  
have not seen  
the last of me!

Hey, wait!

How did you  
make those  
footprints?

Yes?

I wore  
shoes

That makes no  
sense! Then  
again, who am  
I to judge?

Farewell...

Now, to return Commander  
HJ's Ruby. Although, I  
bet he would like it much  
better if I gave him the  
magic Perl instead...

You're right, Lovable Indestructible  
Grad Student of Chaos! We  
should go bowling!
